Mandviwalla Driving Dynamics

Mandviwalla Motors introduces a first of its kind in Pakistan, a unique course on Driver Training. Learning to drive is easy. Getting a license even easier. Learning to drive properly, within the rules, well let's just say, our knowledge is lacking.

MANDVIWALLA

Driving dynamics

In congested roads like Karachi, Lahore & Islamabad an educated driver is a wiser driver. Tailor made for our Pakistani roads, our program can get you, your team and your drivers, thinking wiser, safer and refreshed on the do's and don'ts of driving. This training is currently available for corporates. To find out more information, call our Sales Manager at 0300-254-6524.

Mandviwalla's Tips for your Trips

Tyres are the main contact between you & the road! For better & long lasting Tyres, keep the tyre pressure to the recommended levels as per the sticker pasted on the front side pillar/door. Under-inflated tyres (low pressure) cause tyre side walls to wear out faster and Over-inflated tyres (high pressure) cause the tyre centre to wear out faster. Fuel consumption and Road Grip is also badly effected when the air pressures are not correct.

Mandviwalla Car Care

Ever parked your car and came back to see multiple bird droppings on your car. Though some say you might be lucky, the bird droppings are extremely acidic & poison to your cars paint, ripping through your paint coats exposing your metal to create rust. Mandviwalla recommends to quickly clean with warm water without putting pressure on the surface and then again clean with car shampoo to ensure the acid is washed away.
